

WOOSTER[®]

super/fab[®] FTP[™]

With HydroFlow[™] Technology for Controlled Release

Non-matting, shed-resistant, and faster performance...Super/Fab FTP has everything you want in a high-production roller, and more! HydroFlow technology enables the cover to release paint smoothly and consistently. It makes painting easier because there's no need to go back and rework an area to get perfect coverage. The soft, proprietary fiber construction offers superior capacity and retains bounce-back for reuse. Super/Fab FTP: For Today's Paints.

- Shed-resistant and high-capacity For Today's Paints: flat, eggshell, satin
- HydroFlow technology provides controlled release, prevents sagging
- Exclusive lager-colored fabric for fast coverage, non-matting for longer life
- Green[™] double-thick polypropylene core resists water, solvents, and cracking

ALSO AVAILABLE

3-Packs

Ideal choice for entire rooms: one roller for primer, one for the ceiling, a third for walls. Zip-seal bags keep covers clean and protected.

Jumbo-Koter[®] Minirollers

Made using fabrics identical to their full-size counterparts, these 4½- and 6½-inch minis create finishes that match perfectly every time.

Non-Beveled

Non-beveled fabric makes this cover ideal for rolling into corners. On production jobs like apartment repaints, no brush cut-in required.

WOOSTER[®] super/fab[®] FTP[™]

- For today's paints (flat, eggshell, satin) • Shed-resistant & high capacity • Fast coverage, non-matting

Improve Production with Wooster-Exclusive HydroFlow[™] Technology
